2014-2020

(English Supported Education)

### SKILLS

#### Frontend Skills:

HTML5 High, CSS3 High,  
JavaScript High, ReactJS High  
VueJS Basic, Bootstrap Intermediate,

#### Backend Skills:

NodeJS High, ExpressJS High,  
NestJS Intermediate, .NetCore MVC Intermediate  
MongoDB High, MySQL Basic

**Languages:** English C1, Turkish Native

### PROJECTS

#### •Solo-Arge

This project, developed with React, was designed as a modern and user-friendly corporate website that reflects the identity of a company called Solo-Arge. It offers three language options (Turkish, English, and Arabic) to ensure accessibility for users from different regions. Through this project, I significantly advanced my front-end development skills with React. <https://www.soloarge.com/>

#### •Vella Cocept

A Furniture application created using the MERN stack. This website, created to showcase Vellaconcept's furniture, allows users to explore and search for products using advanced filters. Additionally, the site offers 4 language options, making it accessible to international users. <https://www.vellaconcept.com.tr/>

#### •Bilgin-Estate

A Real Estate application created using the MERN stack. This real estate platform allows users to upload their properties and enables others to view and explore them using advanced search filters. <https://github.com/ErdemBilgn/BilginEstate-MERN>

#### •FOODI

A Food Delivery application created using the MERN stack. This food delivery application allows users to browse menus and create their own carts. It also features an admin panel for adding, editing, and deleting products. <https://github.com/ErdemBilgn/Foodie-MERN>

### SEMINARS & COURSES & VOLUNTEERINGS

#### IEEE Sakarya University Student Branch
